

# Mini album for scrapbook layout using one 12x12 DSP sheet

inspired by Treasure Books

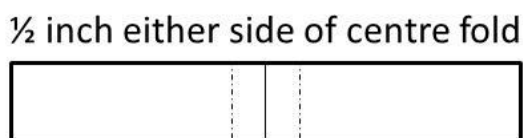

1. Cut your 12 x 12 sheet into 3 equal pieces (at 4 inches)

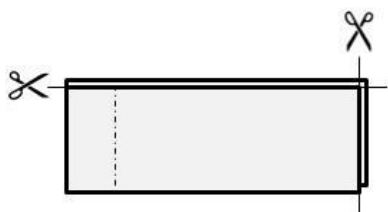

2. Fold each piece in half

3. Score the "spine" half one inch either side of the centre fold. Do this on all three of your pieces

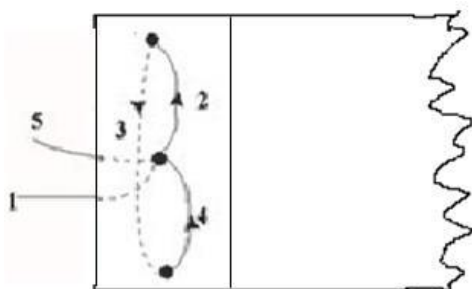

4. Lay your three folded pieces on top of each other and neaten any edges that may stick out

5. Punch 3 holes on the spine for the binding – about 1 inch apart

6. Bind your "signatures together with ribbon or twine of your choice and tie off

7. Decorate with photos and journaling and insert into your layout
